Consulting Engineer Job Description

Position: **Consulting Engineer**

Description: Express Systems Integration (ESI), a leading Systems Integrator in Central New York, is actively seeking a highly motivated consulting engineer with a combination of outstanding technical expertise and communication skills needed to successfully design, implement and support a wide array of today's leading network technologies.

Job Description: The Consulting engineer will provide customer facing pre-sales and post-sales support of network and server infrastructure technologies for a variety of SMB and Enterprise customers in the Central New York region.

Key Responsibilities:

- Technical Assessment and needs analysis
- Implementation of Network solutions
- Implementation Project management
- Working with ESI Sales and Technical staff in developing, presenting and delivering advanced technical solutions.
- Preparing documentation
- Working closely with key customers to understand their needs and provide appropriate solutions to their business needs

Requirements:

- 5+ years of progressive technical responsibilities
- Microsoft, Novell, Citrix, Cisco or other top manufacturers certifications
- Self starter with the ability to follow through on multiple project and priorities concurrently.
- Ability to work both independently and as a team player
- Ability to communicate well both verbally, as well as in a written format
- Ability to learn about new technologies and solutions
- Excellent customer presence.

Benefits: ESI offers a comprehensive benefit package including: medical, dental, life insurance, 401k, paid holidays, and vacation and personal days.
